

- Specification Sheet -**GROWER 0-29-26**

GROWER 0-29-26 is a highly-concentrated fertilizer (Phosphorus-Potassium) containing mono and di- potassium salts of phosphorous acid. **GROWER 0-29-26** is a clear totally water soluble solution which is immediately absorbed by the plant tissues of the leaves and the root.

PROPERTIES AND USES:

- Is absorbed much faster in comparison to phosphate fertilizers covering more efficiently the needs in phosphorus and potassium.
- Releases gradually the phosphorus during the various growth stages of the crop.
- Promotes the growth of the plant and the root.
- Contributes in the achievement of high yields and improved crop quality.
- Improves the physical condition of the plants.
- Increases the plant resistance against adverse conditions caused by environmental and other factors.
- It is environmentally friendly (it is less toxic than an aspirin for the environment).

APPLICATION:

GROWER 0-29-26 is applied foliarly and by fertigation.

Application Rate: Generally it is applied at the following application rate.

Foliar application: 2-5 l/ha.

Soil application: 2-5 l/ha.

STANDARD ANALYSIS

	(w/w)	(w/v)
Phosphorus (P ₂ O ₅)	29.00%	43.50%
Potassium (K ₂ O)	26.42%	39.00%

PHYSICAL PROPERTIES:

Appearance:	Clear liquid
Specific gravity (25°C):	1.41-1.45 g/ml
Solubility:	100% water soluble
pH (25°C):	7.6
