

FAST-GROW drip

WATER SOLUBLE N-P-K FERTILIZERS
ONLY FOR FERTIGATION

FAST GROW drip fertilizers contain water soluble macronutrients (N, P, K). They are applied only through fertigation. **FAST GROW drip** fertilizers are available in various N-P-K formulations, combining different proportions of nitrogen, phosphorus and potassium, in order to cover the nutritional needs of all crops and to offer grower the possibility to choose the most suitable fertilizer for his crop.
