

GROWER 8-32-5 is a fertilizer with a high content in Phosphorus ideal for young plants, seedlings and newly sowed fields. **GROWER 8-32-5** derives from the highest quality sources of Nitrogen, Phosphorus and Potassium while 50% of the contained Nitrogen is slow release.

CHARACTERISTICS

The condensed fertilizer

GROWER 8-32-5 acts in the plant nutrition in the following ways:

- Ensures a good root system for the plants.
- Prevents flush growth which can lead to increased susceptibility of the plants towards diseases.
- Provides a stable and continuous source of nitrogen achieving in this way the gradual growth of the plants.
- Phosphorus and Potassium are totally water soluble and for that reason they are readily available to plants.
- Does not contain salts and chlorides and so it is ideal for sensitive plants.

COMPATIBILITY

It can be mixed with almost all fertilizers and chemical products.

GROWER 8-32-5 must be the first to add in the solution. Before mixing in the tank you must conduct a compatibility test. The following mixing sequence of

GROWER

8-32-5 is: 1. Wettable products 2. Flowables 3. Water solubles 4. Emulsifiable. Apply the entire tank at the same day.

APPLICATIONS-APPLICATION RATES

Soil Applications

Tomato, Pepper: 5-7.5 l/ha before bloom and every 10-14 days throughout the growing season.

Cucumber, Squash, Watermelon: 2.5-5 l/ha 1-2 weeks after transplanting.

Melon: 5-7.5 l/ha before bloom and 2-3 additional applications every 2 weeks.

Rest vegetables: 5-7.5 l/ha before bloom every 2 weeks after thinning or when the plants have been established.

Foliar Applications

Generally apply at a rate 1.5 times bigger than the soil applications. Foliar applications must be avoided during blossom.

CAUTION

Do NOT use when crop is under heavy stress from pests, heat or inadequate moisture levels. Do not apply during the heat of the day. Do not allow concentrated spray mist to run on fruits or leaves.

PRECAUTIONS

Keep out of reach of children. Harmful if swallowed. Avoid contact with skin and eyes because it causes irritation and possible damage. Wash thoroughly every exposed body part with plenty of water and seek medical advice for the eyes.

SHAKE WELL BEFORE USE
