

Liquid Fertilizers NPK

MEAL *fluid*

Nutri MEAL *fluid* fertilizers are a series of liquid clear fertilizers specially designed to provide to the plants the necessary nutrients (N-P-K) throughout their growth period. The regular application of **Nutri MEAL *fluid*** fertilizers ensures high crop yields and increase of the grower's profit.

PROPERTIES

- They derive from raw materials of high purity
- They are suitable for applications both through fertigation and foliarly
- They do not cause clogging of the nozzles, the irrigation lines, the spraying systems and the fertigation systems
- They do not create sediments in the application tank
- They cover fully the nutritional needs of the plants throughout the growing season
- They improve the soil aeration and they also reduce the possibility the root system to decay

APPLICATION - APPLICATION RATES

Foliarly: 400-600 ml per 100 l of water

Fertigation: 30-70 l per ha

Available packaging:

250 cc (box of 50 pcs)

1 l (box of 16 pcs)

5 l (box of 4 pcs)

12 l

25 l

200 l

1000l
