

**- Specification Sheet -****SPEED UP KS**

**SPEED-UP KS** series includes water soluble, chloride-free, N-P-K fertilizers, which display high water solubility and contain the three essential elements for the nutrition of all plants (nitrogen, phosphorus and potassium) at various proportions. The potassium they contain derives from potassium sulphate and they are enriched with a perfect mixture of readily absorbable trace elements (iron, zinc, copper, manganese, boron), which perform an important role in plants growth and health.

**TYPICAL ANALYSIS:**

FORMULATIONS	AMMONIUM N	UREA N
20-20-20+TE	2,2%	17,8%
19-19-19+TE	3,9%	15,1%
30-10-10+TE	3,0%	27,0%
10-51-8+TE	10,0%	0,0%
15-30-15+TE	6,2%	8,8%
20-5-10+2%Mg+TE	10,2%	9,8%
10-10-30+TE	4,0%	6,0%
6-12-36+TE	2,4%	3,6%
4-4-44+TE	0,9%	3,1%

All formulations contain the following trace elements:  
Fe 470 ppm, Mn 125 ppm, Zn 125 ppm,  
Cu 30 ppm, B 100 ppm

**PHYSICAL & CHEMICAL PROPERTIES:**

Appearance: Green water-soluble powder

Solubility: 100% water-soluble

**APPLICATION:**

**Speed Up KS** is suitable for foliar and soil applications.

Application Rate: Generally, it is applied at the following application rate.

*Foliar application:* 400 g per 100 l of water.

*Soil applications:* 20-40 kg/ha

**APPLICATION FREQUENCY:**

Apply according to one of the above methods every 10-15 days from Spring till Autumn.
